

# Goodness *on the go!*

## Reach More Employees With the Benevity App

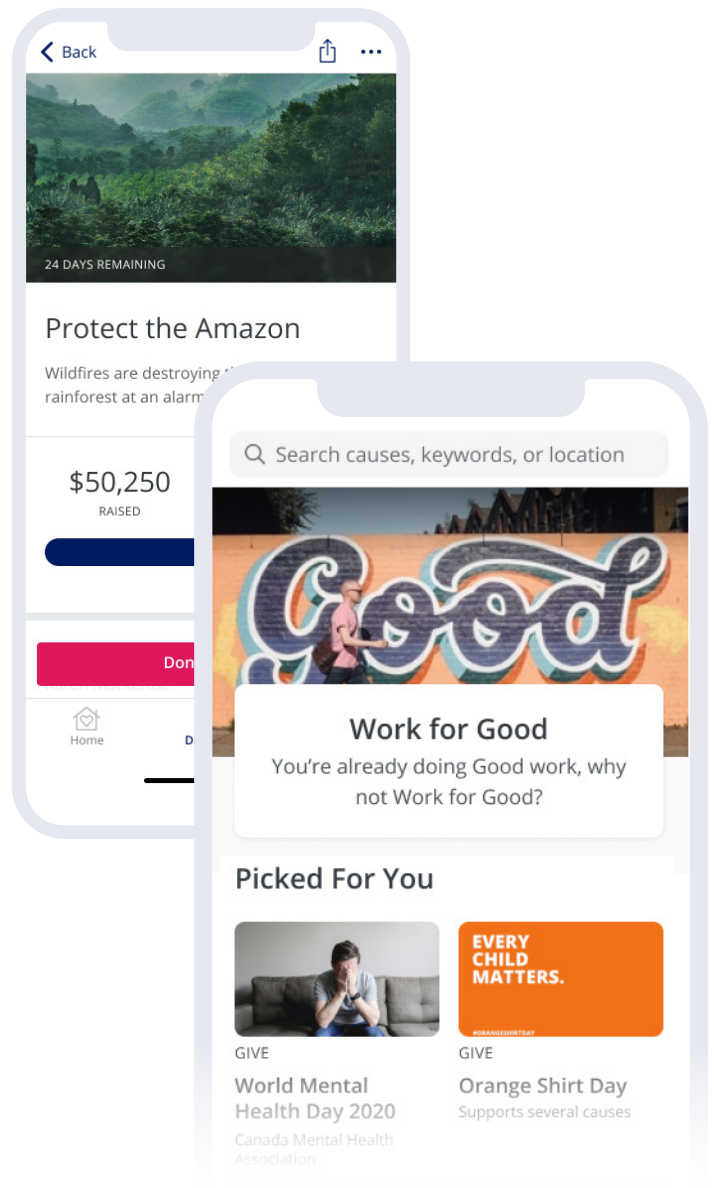

The Benevity app empowers your people to volunteer, give and take positive actions whenever (and wherever!) they're most inspired. And it can help *you* build a more accessible, inclusive program that engages *all* your employees, providing them with a sense of meaning and impact through their work.

Now you can meet people where they are — whether it's working from home or in a factory, a field or a retail store — and put the power of Spark, Benevity's award-winning employee engagement solution, into their hands. Make it easy for everyone to participate, engage and share Goodness anywhere.

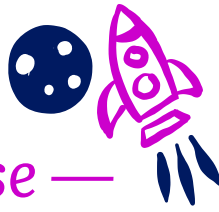

# 80%

**of the global workforce does not sit behind a desk to do their jobs.**

— Emergence Capital, The State of Technology for the Deskless Workforce, 2020

# Connect Your People to Purpose — Anytime, Anywhere

## Expand your program's reach

Make your program more accessible to all of your employees (remote, field, retail and factory workers), even if they don't have access to a work device.

## Access Spark on the go!

The free Benevity app provides access to your corporate purpose program on the go, including company-featured content, giving, volunteering and Missions, all optimized for mobile devices.

## Connect your people to your culture

The app makes it easy for dispersed employees to participate in your initiatives, so they can create deeper bonds with each other and your culture.

## Put the Power of Spark in Your People's Hands

## Find local (or virtual) volunteer opportunities

Sign up for volunteer shifts in one click. Your people can find important information like who's attending and the organizer's contact info. And with their location enabled, they can find opportunities that are close to them!

## Donate when inspiration strikes

The urge to do good is often spontaneous, so when a disaster becomes headline news or a personal experience creates the desire to act, your people can give support in the moment. They can donate how they want — through payroll giving, Giving Account rewards, credit card, Apple Pay or PayPal with real-time donation matching.

## Take action with Missions

Missions encourages people to take small, positive actions in their daily lives — like riding their bike instead of driving, reducing plastic waste or finding ways to make meetings more inclusive. Employees can keep track of their Missions activities right in the app whenever it's most convenient.

## Create More Impact Without More Work

## Easily track volunteer time in real time

The Benevity app lets your people track their volunteer hours right at the event. This provides you with a real-time view of your program's impact and reduces the need for reminders and manual time entry. Volunteers can also earn rewards, if that's part of your program offering.

## Enable access in just one click

Enable access to the Benevity app right from your admin dashboard. We've also created an extensive launch kit and tools to help roll out and promote the app to your people.

## Make it simple to log in

There's no need to remember additional passwords. After setting up FaceID/TouchID (or fingerprint authentication on Android), your people can immediately access the app without having to enter a password. You can connect with your company's existing SSO set-up to create a seamless login experience.

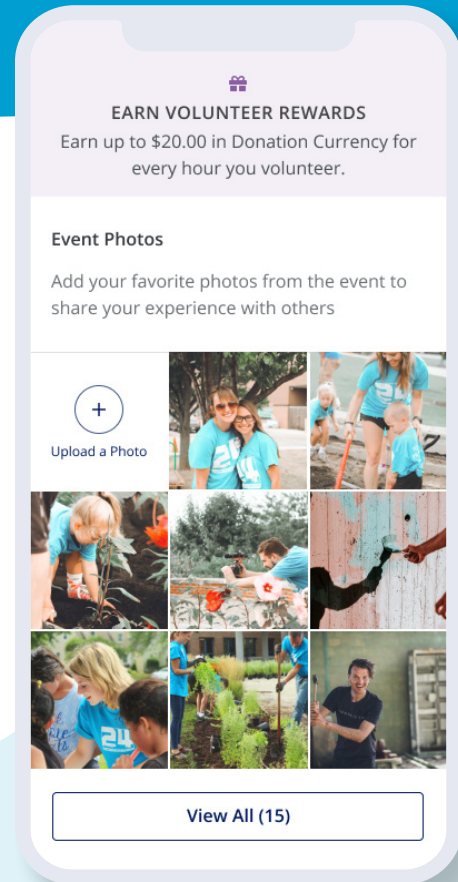

# Be More Social

*(While Doing Good)*

## Inspire others with photo sharing

Activity Streams brings a more social experience to the app by letting your people easily upload volunteering photos and share their experiences in real time. And, you'll have access to all of the photos so you can download and use them to promote your program and tell your story!

# More Opportunities to Participate = More Good for All!

## Benevity app users can easily:

- ✓ Track their Goodness, seeing at a glance how much they've donated, available Giving Account balance and matching funds, and how many volunteer hours they've logged.
- ✓ Discover new opportunities, including Trending Now and Popular Causes content, company-featured initiatives and the ability to search for more ways to do good.
- ✓ Sign up for volunteer opportunities and track time immediately. With Activity Streams, your people can instantly upload photos to share their experience and inspire others.
- ✓ Donate to causes whenever they're inspired to give: by payroll, Giving Account rewards, credit card, PayPal and Apple Pay on iOS devices.
- ✓ Access learning resources through Missions and make new positive habits when it's most convenient.
